## Project

1. My personal website is my first project, highly praised by teachers and classmates. I've invested a lot of time in it and my site is live now. To check my work, please visit: https://masonliao319.github.io/myweb/
2. I made a fun webpage to count down the days between the customer's next birthday and current date. To check my work, please visit my site.
3. SYN flood Attack Simulation project. This SYN flood Attack simulation is a group project using a Python script to create continuously connections to a destination IP address. I am the leader of my group, please visit my site to check our work.
